

Podcast #2: Breaking into the entrepreneurship sphere with Ibahim and Rinae

Description

Join us for our second episode with student entrepreneurs Rinae and Ibrahim, the co-founders of RINAIBRA.

RINAIBRA is a maintenance communication system with a focus on students and the residence maintenance administrator. Founded in 2020 by Riane and Ibrahim, they offer tracking of residence maintenance issues on the platform and a convenient communication system between the administrator and the students of the residence. The platform provides real-time insights on maintenance issues that persist in the residences. Allowing the client to save money on maintenance while also leading to new alternative solutions to unsuspected maintenance problems. RINAIBRA promotes accountability within residence maintenance systems. Their Clients University Residences. Body Corporates. Private property owners. You
